**EC Chemicals Regulation REACH
ECHA Candidate List with 235 substances as of June, 14th 2023
(Substances of Very High Concern)**

Dear all

Referring to your request as to REACH, we can inform you as follows:

In cooperation with the rawmaterial suppliers Stanzwerk AG is working on the implementation of the REACH regulations.

According to the information from the steelmills, our rawmaterial (coldrolled electrical steel, grain oriented and non oriented) is considered as article and not as substance or preparation. Therefore our products, such as Motor- and Transformer-laminations, including strips, are also articles.

As only producers and importers, who manufacture or import substances and/or substances in preparations in quantities of one tonne or more per year in the European Union have registration obligations under REACH, we are exempt from this obligation.

All our products are free from Substances of the Candidate List (235) as of June, 14th 2023.

Sincerely yours

STANZWERK AG
