Regulation EUR 2017/821 (EU) on conflict minerals

Dear all

In January 2021, the EU adopted a new Regulation EUR 2017/821 (EU) on conflict minerals.

As a manufacturer and distributor, we have no influence on where minerals from our suppliers or their upstream suppliers come from.

We ourselves do not import minerals or so-called conflict minerals.

We guarantee that we handle this matter carefully and take our responsibility towards people and the environment seriously. We work with long-standing and reputable suppliers and are committed to ensuring that products are traceable and transparent.

Our suppliers are checked and selected in this context. Many manufacturers have already provided information on their websites about the material properties and origin.

Sincerely yours

STANZWERK AG
