**RoHS (2011/65EU) as well as EC Chemicals Regulation REACH (1907/2006/EC)
Compliance ECHA Candidate List with 241 substances as of June, 27th 2024
(Substances of Very High Concern)**

Dear all

Referring to your request as to REACH/RoHS, we can inform you as follows:

In cooperation with the raw material suppliers Stanzwerk AG is working on the implementation of the REACH regulations.

According to the information from the steel mills, our raw material (cold rolled electrical steel, grain oriented and non oriented) is considered as article and not as substance or preparation. Therefore our products, such as Motor- and Transformer-laminations, including strips, are also articles.

As only producers and importers, who manufacture or import substances and/or substances in preparations in quantities of one tonne or more per year in the European Union have registration obligations under REACH, we are except from this obligation.

All our products are free from Substances of the Candidate List (241) as of June, 27th 2024, as well as compliant according RoHS (2011/65EU)

Sincerely yours

STANZWERK AG
